Disney cruise door decorations templates free

It's only been a week and a half since we returned from our Disney Cruise to the California coast and we're already losing and ready to come back! When I shared some photos on social media, the most beloved of my photos were from our Disney cruise gate decorations! I decided I was going to share how I assembled our Disney cruise gate decorations (and why) and give my readers a free magnet from the printable Disney cruise gate! We keep listening even before we leave that Disney does cruises the best. As I investigated more about this, I learned that it was not only for first class service and accommodation, but also for the encouraging interaction between guests! Of these, there are parties to attend, mixers, classes to take and have fun disney cruise door decorations and fish amplifiers in the sleeping areas boats! The doors of Disney ships are magnetic and people buy or make their own Disney cruise gate magnets to put on the outside of their door. For us I loved the idea of using Disney cruise door decorations as a way for our kids to easily locate our room and engage in fun! In our hallway almost all the doors were decorated and many people bought some very nice magnets in ETSY stores. However, there were a ton of other people who made their own use of Disney impressions, using a fairly similar process as we did! Getting the free magnets from Disney Cruise Door Printable I hoped to make our door interactive for people to create their own character combinations or just dress up mickey mouse head, but they would like it! It was the Halloween cruise so a Frankenstein type character creations would be a very fun disney cruise door decoration. I first created the files in the Silhouette studio by finding images on Google, tracking them and making files. I had to do some creative work here and thought I would save you the effort and offer the SVG, PDF, and JPEG files for you to download. Just click here or in the photo below to access the files! Once I created the Disney print files, I printed them using my HP all-in-one ENVY in white card stock. The colors were perfectly vibrant and printed very quickly. You can see how beautiful they printed below. After printing them out I decided to cut them by hand. If you have a silhouette, you can also track and cut it that way, but I forgot to use the print marks, so I just cut it myself. It really only took about 10 minutes, so it wasn't a big deal. Now get to work on your Disney Printables Once they were all cut, I laminated. With my laminator, I had to cut them before laminating because lamination seals around the paper and not on the paper. Depending on how your laminator works you may only have to cut once. After disney cruise door magnets were laminated, I had to cut back by hand, this was actually much faster because it didn't have to be perfect and the lamination was clear, so if I didn't have my perfect corners, you 好The staff were very friendly and helpful. Mickey is shown above! It looked so good and we were ready to add the magnet to them. I also used my silhouette and cut the letters representing each of our first vinyl names. A sticker would work very well too! I bought a 3M Scottish magnetic tape roll and cut them into pieces to fit each of the Mickey Mouse pieces. Then we peeled the paper and glued them to the center of each magnet to begin with. We ended up having to add additional magnet pieces to each of the magnets because we were one of the only doors of the whole ship that had been demagnetized! We didn't realize this until after adding more magnets and it still didn't work. Totally threw the funny idea of Frankensteining the Mickey mice! I'll tell you that the magnets stuck very well to other doors before adding more magnets and then they got even better, it was just our door that wasn't magnetic! Fortunately, our awesome neighbors had tape of painters and came in and saved the day helping to make sure our Disney cruise gate magnets stayed together! We were able to hook our little ones and although people couldn't move them and play with them, they still seemed very cute! I wish the lighting wasn't that hard, but you get the gist! If you are interested in buying any of the supplies to make your own, you can buy my links below! Interested in other places about our Disney Cruise experience? Read my article about our experience at the Bippity Boppity Boutique. This site contains affiliate links. If you decide to make a purchase through my link, Amazon will pay me a fee for it. That doesn't cost you anything extra. These commissions help keep the rest of my content free, so thank you! Pin on Pinterest Have you traveled on a Disney cruise before? If not, you may not realize that decorating your door is actually a Disney thing! Many people decorate recognizing parties / special events (birthdays, weddings, cruise for the first time), there are teased doors (Star Wars, Frozen) or there are family doors (put a mickey for each cabin member.) We loved Disney and loved tea tea celebrations and wanted to bring these special gifts - FREE DISNEY CRUISE DOOR PRINTABLES! Are you surprising your family with a Disney Cruise? Why not do this part of the 'reveal'! Have them each decorate a set of Disney ears with simple craft supplies and then tell them that you will be decorating your door with them on the cruise! If you are celebrating a birthday on the trip, cut a few triangles of printed paper to look like party hats and customize your ears! There are so many Fun that you can decorate these ears and make them special for your family and the occasion. Don't forget to make a space for them in your scrapbook. It's a great place to stay, on the back. Lamination is not a bad idea, too. The doors of the Disney cabin are magnetic unless you're in a concierge room, which normally has a wooden door. We haven't cruised with Disney Cruise Line yet, but, nevertheless, we're part of a lot of disney cruise's lovely communities, they've got some fantastic guest spots about Disney cruising and they're Disney crazy ourselves. So when a reader contacted us asking how to make Disney cruise door decorations we got a little annoyed. You see Donna and I are crazy artisans, too. So after wasting hours on Pinterest looking at all the amazing ways you can decorate a Disney Cruise state room door, I decided it was time to bring some extraordinary chaos to cruise with kids and do a DIY Disney Cruise Door Decorations tutorial with my trusty Cricut Maker. Si you're a craft lover, pop over and take a look at what I got up to in my other life. But if you haven't been on a Disney cruise before you'll wonder what's all this clumsy stateroom door decoration? Well, let me tell you, I have to go to a Disney Cruise just through the doors. In my other life I have a bit of an obsession with the door. But before you start, scan the pincode code below with your Pinterest camera or click on the link to some disney cruise door decoration ideas. What are Disney Cruise Door decorations ? Decorating the stateroom door is part of Disney Cruise Life, cruiseships delight in decorating their doors with their favorite Disney characters, movies or family names. Can magnets be used at all doors of Disney's stateroom? No, the concierge state rooms of Disney Dream and Disney Fantasy have wooden doors. The use of glue, tape or any adhesive, including removable ice stickers is prohibited as it will the door. How to Make Disney Cruise Door Magnets with the Cricut Maker. If as I am a crafts man you will know that you can cut a multitude of materials with the Cricut Maker and one of these is magnetic printing and cut paper! I discovered this after a year of loving my Cricut Maker, but printing and cutting has revolutionized the way I elaborate. So here it goes, step by step, how to make Magical Disney Cruise Door Decorations? At Cricut Design Space you start by selecting 3 circles. Resize the circles to create a mickey shape, it takes some improvement, but use your eye and you will arrive over time. Once you are happy with your shape, right click select everything and weld the shape together to create a Mouse template. Right click and duplicate until you have several black Mouse shapes. For Mickey, cut a circle in half and color this red. Then select a new circle, resize and shape to a small oval and yellow color for buttons and duplicates. Once you're happy with Mickey right click and flatten. For Minnie and the pirate bandana, choose your bow or bandana shape in the design space. If you can't find one, choose an image of a pirate, ungroup it, and delete unwanted images. Color the arc/ bandana in the correct shade of red. Now select a circle for the polka dots. Resize the color of the white circle and continue doubling over the arc/ bandana until you are happy. I find it better to resize it from time to time and them to create a variety of sizes. Once you are happy right click and weld the dots to the bow/bandana. Now position on your Minnie/Mickey shape and flatten. To create AHOY, search the design space, also find Mickey, simply overlay, recolor, and then flatten it. Finally, you can add your name or create mini-name disks. Once you are satisfied with the size of your images you can send them to print and cut into magnetic paper. If you have access to the Cricut design space, see the project here. Check out our step by step Vlog Below. If you don't have a Cricut Maker take a swipe at our free Disney Door MagnetsClick PDF here for printable versions PDF 1 and 2, just be sure to print on magnetic paper and good luck cutting!
